Location: Jordan-Irbid

EDUCATION

Jordanian Tawjihi Program

Current Status: Grade 12

Expected Graduation: Summer 2027

Intended Major: Computer Engineering

Country: Jordan

TECHNICAL SKILLS

- HTML5
- CSS3
- JavaScript (Basic)
- Responsive Web Design
- GitHub
- AI-Assisted Development
- Digital Transformation

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Communication
- Self-Learning
- Adaptability
- Time Management

LANGUAGES

- Arabic — Native
- English — Upper-Intermediate (B2)
- Turkish — Elementary (A2)
- German — Beginner (A1)

INTERESTS

Technology • Languages • Travel • Learning About Different Cultures • Horse Riding • Swimming • Cooking • Music

JAWAD OBEIDAT

Aspiring Computer Engineer
Cybersecurity • Artificial Intelligence • Cloud Computing

PROFILE

I am a Jordanian high school student who enjoys learning, exploring new ideas, and finding opportunities to grow beyond what I already know. I am interested in Computer Engineering because I enjoy technology and the process of turning ideas into practical projects. I hope to study abroad, where I can strengthen my technical skills, learn new languages, experience different cultures, and become more independent. I want to make the most of my education by pursuing a bachelor's degree and postgraduate studies, while continuing to challenge myself academically and personally. In the long term, I aspire to build a meaningful career, take on international leadership responsibilities, and eventually pursue a PhD. These are ambitious goals, but I am willing to work toward them step by step.

ACADEMIC INTERESTS

Computer Engineering • Cybersecurity • Artificial Intelligence • Cloud Computing • Software Engineering

ACHIEVEMENTS & CERTIFICATES

- **Gold Awards — Constructor Spring Challenge 2026**

  Received six gold-level awards across three fields in both Classic and Enhanced modes: Natural Sciences & Research, Computational Sciences & Engineering, and Business, Social & Decision Sciences.
- **English Proficiency Test — 92%**

  Proficiency Test associated with Tomorrow's Leaders, FHI 360, and Arizona State University. October 2026.
- **German A1 Certificate**
- **Certificates of Appreciation**

  Two certificates of appreciation.
- **Harvard CS50x** — Currently in Progress

VOLUNTEERING

Afaq Al-Badia for Education and Vocational Training

December 2025 – September 2026

Contributed to community activities and events focused on career development, women's empowerment, and vocational training. Supported outreach, coordination, event logistics, and the implementation of activities alongside the organization's team.

Al-Lulwah Al-Kinaniyah

February 2025 – November 2025

Received a certificate from Al-Lulwah Al-Kinaniyah in recognition of participation in its activity. This experience reflects my interest in community engagement and continued personal development.

PROJECTS

Tawjihi Smart Platform

Designed and developed an educational guidance platform to help Jordanian high school students calculate their expected Tawjihi scores and explore possible academic outcomes. The project reflects my interest in using technology to address practical needs in my community.

Technologies: HTML5, CSS3, JavaScript, AI-assisted development | ***View Project***

Clinic Digital Transformation

Worked on improving the digital presence of a local dental clinic by creating a website and connecting online touchpoints to make information, reviews, and patient communication easier to access. The project introduced me to practical digital transformation for a local business.

Technologies: HTML, CSS, Responsive Web Design, AI-assisted development | ***View Project***
